

**Department of Electronics and Telecommunication**  
**Action Taken Report**  
**Academic Year 2020-21 Sem B**  
**Session: Jan-May 2021**

The students' feedback is very essential to improve the quality of the teaching-learning environment and to look for opportunities to improve overall department performances including teacher-in-classroom engagement with students to bring distinction in teaching and learning. Thus, the overall feedback has been discussed in department meeting & DPAQIC and actions taken are listed below:

1. Looking into the present Covid-19 situation it is highly expected that a few more semesters will be held in ONLINE mode. Therefore the faculty members are encouraged to prepare the experiments using virtual lab and other online platforms.
2. Faculties are advised to prepare digital content for their respective subject and share it with the students.
3. Students were promoted to the next semester based on their previous year's performance and initial attendance so faculty mentors must keep a track of student's academics & regularly mentor them.
4. Looking to the current scenario in order to maintain connect with subject various webinars were organized in different domains for faculties and students.
