

Department of Computer Engineering

Date: 1-09-2021

A meeting of faculty members of Computer Engineering was held to discuss appropriateness of syllabus of subject "Physics" for 1st year students of Computer Science & Engineering.

After due discussion it is observed that

1. The existing syllabus of subject PII10006 Physics is more suitable for Computer Engineering students as it includes topics on Laser and Fiber Optics. It also has adequate content on Quantum physics.
2. The proposed new syllabus contains more than the requisite emphasis on the topic Quantum Computation and does not include the required topics: Lasers & Fiber Optics.
3. Also, looking to the practice of branch upgradation after 1st year, the scheme and syllabi of all subjects including that of subject "Physics" should be kept uniform for students of all branches.

Signatures

1. Dr. Urjita Thakar (Prof. & Head)
2. Prof. D. A. Mehta (Professor)
3. Mr. Surendra Gupta
4. Dr. Vandan Tewari
5. Mr. Rajesh Dhakad
6. Dr. Anuradha Purohit
7. Ms. Priyanka Bamne
8. Ms. Neha Mehra
