

Industrial Visit Report

P.N Polybags Private Limited, Indore

Place: P.N Polybags Private Ltd, Indore

Date: 27/02/2020.

The visit to P.N Polybags was organized for the B.Tech. students as a part of the academic program activities. The visit provided an excellent opportunity for students to understand, learn how to apply and relate theoretical knowledge and practical industry applications. The objective of the visit were to acquire in-depth knowledge about the technology prevalent in the industry.

PN Polybags Private Limited was set up in the year 2014, by Mr. Narendra L. Kulkarni. PN Polybags is one of the leading manufacturer and supplier of wide range of Cement Bags, Technical Textile, Leno Bags, Fertilizer Bags. Our products are designed to last and meet the most severe industrial standards. They produce and export woven packaging material for both work-in-progress and finished industrial goods with rates tailored to the packaging and delivery needs of each customer.

The students firsthand witnessed the manufacturing process of Cement bags, Leno bags, Fertilizer bags, Flexible Intermediate Bulk Containers (fIBCs), Woven bags, Garden bags. They even got the chance to interact with P.N Polybags officials and experts to gain deeper insights. The visit to P.N Polybags Ltd, was an enriching experience, providing students with practical exposure and valuable insights. It was a vital step towards the gap between academia and industry.
