Vision of the Institute

A front-line institute in science and technology making significant contributions to human resource development envisaging dynamic needs of the society.

Mission of the Institute

To generate experts in science and technology akin to society for its accelerated socioeconomic growth in professional and challenging environment imparting human values.

Vision of the Department

To create IT technocrats equipped with skills, ethics and social values for developing globalized and technological solutions for betterment of society through transformative education.

Mission of the Department

Mission No.	Mission Statement
M1	To enable students become technocrats who can cater the growing manpower need of the industry for economic development.
M2	To build a center of excellence on frontier areas of Information Technology and related domain.
M3	To impart quality and value based education in Information Technology to enable students solve real world problems with an inclination towards betterment of society.

List of POs- Program Outcomes

1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specific needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

4. Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

6. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

7. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9. Individual and team work: Function effectively as an individual and as a member or leader in diverse teams, and in multidisciplinary settings.

Head IT

10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Specific Outcome Statements

PSO No.	Program Specific Outcome Statements
PSO1	Students will be able to understand and manage appropriate InformationTechnology recourses to achieve goals and objectives of an individual as well as organization.
PSO2	Students will be able to design and develop inexpensive, secure and robust IT products and applications using state-of-the-art tools and techniques.
PSO3	Students will be able to pursue higher studies, research and career in entrepreneurship.

Program Educational Objectives Statements

PEO No.	Program Educational Objectives Statements
PEO1	To prepare engineering graduates to become empowered IT technocrats with comprehensive knowledge and skills to serve the evolving IT industry.
PEO2	To empower graduates to pursue higher education and research.
PEO3	To develop skills to become an entrepreneur by observing global changes and needs.
PEO4	To prepare engineering graduates who are conditioned to handle challenging tasks as an individual or as a team.
